I love hanging out with my family and friends, especially bowling with them because none of us are any good at it—but it is a ton of fun!

Get to know me: Proud mother of two: my daughter, who is finishing her freshman year of high school, and our goldendoodle, who is currently rocking a sweet mohawk. In my spare time, I enjoy exploring new coffee shops, brew pubs, hole-in-the-wall diners, supporting local everything, watching my daughter play school sports, and LET'S GO BLUES! "I don't know where I'm going, but I'm on my way."

Joseph Johnston – Provider Network Manager

Get to know me: I am a big weather geek. I used to storm-chase back in college, but have yet to see an actual tornado. Also, I am an avid gardener. Have done many community beautification projects around the city I live in. Next one is my back yard...lol!

Krystina Nickel – Provider Network Manager

With Molina Since August 2019

Territories: SUPR, CMHC, BHC—Northwest, Cook County, Collar Counties

Get to know me: I enjoy history and archeology because they stretch the imagination and give me the chance to travel in time. I am capable of holding conversations in three languages at the same time. (There are also three languages that are not so fluent, but I can get by.)

Alexandria Pinnix – Provider Network Manager

With Molina Since October 2019

Territories: LTC, SLF, SNF—Central, Southern; Hospice—Statewide

Get to know me: I am originally from North Carolina. I am left-handed and love to travel with my friends to try new restaurants! Lately when I am not traveling, I have been spending my time planning my wedding with my fiancé Patrick. My dream is for us to have our own farm surrounded by a lot of animals!

LaTasha Smith – Director, Provider Network Management

With Molina Since September 2013

Get to know me: I love to garden. Each year I plant a huge variety of vegetables, herbs, and fruits. I love planting and tending them as much as eating them and sharing with family and friends! To get a jump on the short growing season of northern Illinois, I start them indoors in pots, then transfer them to my garden beds.
