### Four Ways Members Can Renew Their Medicaid Coverage

Everyone needs to make sure their Medicaid enrollment is up to date. Here's how members can renew their Medicaid coverage:

1. Online: log in to [accessnevada.dwss.nv.gov](https://accessnevada.dwss.nv.gov)
  - Click login
  - Enter username and password
  - Complete the necessary steps to submit the referral
2. By Phone—call the Division of Welfare and Support Services (DWSS) at (800) 992-0900

3. By Mail—fill out the Medicaid Redetermination Form and return to:  
Document Imaging Center  
PO Box 15400  
Las Vegas, NV 89114
4. In person—see office locations at [dwss.nv.gov/contact/welfare/](https://dwss.nv.gov/contact/welfare/) or call (800) 992-0900  
There may be document requirements to return along with the application for renewal.  
Members may contact DWSS for Medicaid at (800) 992-0900.

## Get Automatic Approval for Advanced Imaging Prior Authorization Requests

Molina Healthcare has partnered with MCG health to offer Cite AutoAuth self-service for advanced imaging prior authorization (PA) requests.

### What is Cite AutoAuth, and how does it work?

By attaching the relevant care guideline content to each PA request and sending it directly to Molina, healthcare providers receive an expedited, often immediate, response. Through a customized rules engine, Cite AutoAuth compares Molina's specific criteria to the clinical information and attached guideline content to the procedure to determine the potential for auto authorization.

Self-services available in the Cite AutoAuth tool include, but are not limited to MRIs, CTs, and PET scans. To see the complete list of imaging codes that require PA, refer to the PA Code Look-Up Tool at [MolinaHealthcare.com/NV](https://MolinaHealthcare.com/NV).

### How to Access and Learning More

Cite AutoAuth can be accessed via the [Availity Essentials portal](#) in Molina's Payer Spaces and the Molina [Provider Portal](#). It is available 24 hours per day/7, days per week.

This method of submission is strongly encouraged as your primary submission route; existing fax/phone/email processes are also available.

## Important Information About Behavioral Health Claims

Throughout 2022, Molina Healthcare applied updates to our Prior Authorization Code Look-Up Tool to reflect the appropriate authorization guidelines. As a result, Behavioral Health providers may have received denials for prior authorization required after a certain number of service units were rendered.

Our claims team has initiated an internal project to review the impacted claims, address them, and rework them for reimbursement. The list of impacted service codes is provided below.

**Behavioral Health providers are not required to resubmit claims.** The claims sweep project will capture all claims on file with service dates as of July 1, 2022, through October 31, 2022. Any claims with a service date after October 31, 2022, will be excluded from this project and processed through normal processes.

As a reminder, verifying authorization requirements before rendering service to a Molina member is important. The Authorization Code Look-Up tool can be accessed via our Molina Website at [MolinaHealthcare.com/NV](https://MolinaHealthcare.com/NV)

Should you require additional assistance, please contact our Provider Contact Center at (833) 685-2103 or contact our Provider Relations Department at [NVProviderRelations@Molinahealthcare.com](mailto:NVProviderRelations@Molinahealthcare.com)

**Impacted Service Codes**

SERVICE CATEGORY	UPDATE TYPE	CODES
Behavioral/Mental Health, Alcohol-Chemical Dependency	Prior Auth after X units	H0005
Behavioral/Mental Health, Alcohol-Chemical Dependency	Prior Auth after X units	90791
Behavioral/Mental Health, Alcohol-Chemical Dependency	Prior Auth after X units	90832, 90834, 90837, 90839, 90840, 90845, 90846, 90847, 90849, 90853, H0004, H0004 HQ, 90875, 90876
Behavioral/Mental Health, Alcohol-Chemical Dependency	PA Update	H2011, H2011 GT, H2011 HT
Behavioral/Mental Health, Alcohol-Chemical Dependency	PA Update	H2017, H2017 HQ
Behavioral/Mental Health, Alcohol-Chemical Dependency	Prior Auth after X units	H0035, S9480
Behavioral/Mental Health, Alcohol-Chemical Dependency	Prior Auth after X units	90833, 90836, 90838

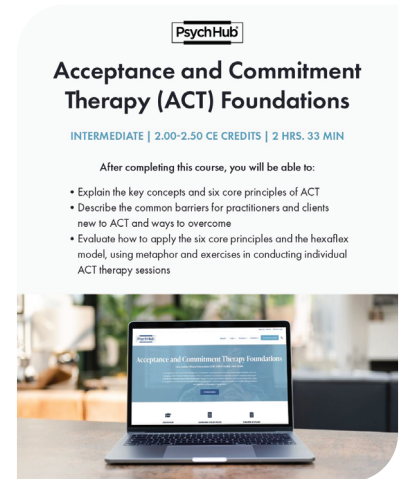

**New PsychHub Course Available, Offers CEUs**

Our PsychHub partners have recently launched their newest online course, Acceptance and Commitment Therapy (ACT) Foundations. The ACT Foundation’s course explores the construct of psychological flexibility.

Learn the action-oriented, empirically based approach to therapy that invites clients to process their feelings while empowering and educating [#mentalhealth](#) practitioners.

**Ready to get started?** Molina Healthcare network providers can access this and other courses that offer CEUs on the PsychHub platform by clicking this link:

<https://app.psychhub.com/signup/molina-mhp/>

**Molina Healthcare’s Special Investigation Unit Partnering with You to Prevent Fraud, Waste and Abuse**

The National Healthcare Anti-Fraud Association estimates that least three percent of the nation’s health care costs, amounting to tens of billions of dollars, is lost to fraud, waste, and abuse. That’s money that would otherwise cover legitimate care and services for the neediest in our communities. To address the issue, federal and state governments have passed a number of laws to improve overall program integrity, including required audits of medical records against billing practices. Molina Healthcare, like others in our industry, must comply with these laws and proactively ensure that government funds are used appropriately. Molina’s Special Investigation Unit (SIU) aims to safeguard Medicare and Medicaid, along with Marketplace funds.

## You and the SIU

The SIU utilizes state-of-the-art data analytics to proactively review claims to identify statistical outliers within peer (specialty) groups and services/coding categories. Our system employs approximately 1,300 algorithms to identify billing outliers and patterns, over- and underutilization, and other aberrant billing behavior trends. The system pulls information from multiple public data sources and historical databases that are known to identify and track fraud, waste, and abuse. Our system allows us the ability to track provider compliance within correct coding, billing, and their provider contractual agreement.

As a result, providers may receive a notice from the SIU if they have been identified as having outliers that require additional review or by random selection. If your practice receives a notice from the SIU, please cooperate with the notice and any instructions, such as providing requested medical records and other supporting documentation. Should you have questions, please contact your Provider Services Representative at [NVProviderServices@MolinaHealthcare.com](mailto:NVProviderServices@MolinaHealthcare.com).

“Molina Healthcare appreciates the partnership it has with providers in caring for the medical needs of our members,” explains Scott Campbell, the Molina Associate Vice President who oversees the SIU operations. “Together, we share a responsibility to be prudent stewards of government funds. It’s a responsibility that we all should take seriously because it plays an important role in protecting programs like Medicare and Medicaid from fraudulent activity.”

Molina appreciates your support and understanding of the SIU’s important work, and we hope to minimize any inconvenience the SIU audit might cause you and/or your practice.

To report potential fraud, waste, and abuse, contact the Molina AlertLine toll-free at (866) 606-3889, 24 hours per day, 7 days per week. In addition, use the website to make a report at any time at <https://MolinaHealthcare.Alertline.com>.

## Biosimilars - What To Watch

Biological products are the fastest-growing class of therapeutic products in the United States. Similar to when a generic becomes available, biosimilar and interchangeable products can offer additional options with a potentially lower healthcare cost.

A biosimilar is a highly similar version of a brand-name biological drug that meets strict controls for structural, pharmaceutical, and clinical consistency. A biosimilar manufacturer must demonstrate that there are no meaningful clinical differences (i.e., safety and efficacy) between the biosimilar and the reference product. Clinical performance is demonstrated through human pharmacokinetic (exposure) and pharmacodynamic (response) studies, an assessment of clinical immunogenicity, and, if needed, additional clinical studies. Biosimilars are not considered true generics because unlike traditional drugs, biologics are not synthetically derived but are derived from organic sources, so there are differences between the reference brand biologic and its biosimilars.

Several bodies of experts have published statements in support for the use of biosimilars and integration into clinical practice guidelines, such as the Crohn’s and Colitis Foundation, American College of Rheumatology, and the American Society of Clinical Oncology.

As costs for biological specialty drugs continue to rise, the growing biosimilar market will benefit providers and patients by broadening biological treatment options and expanding access to these medications at lower costs.

An anticipated launch of the first biosimilars for popular drugs such as Humira and Stelara are just around the corner in the first half of 2023. However, it is important to note that while the competition generated by these new launches can help lower healthcare costs—depending on pricing—biosimilars may not necessarily be the lowest cost option in all therapeutic categories. Other considerations that may affect the savings potential from a biosimilar launch include the reliability of supply, the experience of the manufacturer, and patient or prescriber adoption.

Molina continues to be committed to continually reevaluating preferred strategies and applying innovative cost controls to ensure patients receive safe, effective, and quality healthcare.

This commitment includes potentially creating a preference for biosimilars when value can be added without compromising member satisfaction and safety.

## Balance Billing

Balance billing Molina Healthcare members for covered services is prohibited other than the member's applicable copayment, coinsurance, and deductible amounts. The provider is responsible for verifying eligibility and obtaining approval for those services that require prior authorization.

Providers agree that under no circumstance shall a Molina member be liable to the provider for any sums owed that are the legal obligation of Molina to the provider. Examples of balance billing include:

1. Holding members who are dually eligible for Medicaid and Medicare liable for Medicare Part A and B cost sharing.
2. Requiring Molina members to pay the difference between the discounted and negotiated fees, and the provider's usual and customary fees.
3. Charging Molina members fees for covered services beyond copayments, deductibles, or coinsurance.

## Early Periodic Screening, Diagnostic and Treatment (EPSDT) Program

The Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit provides comprehensive and preventive health care services for children under age 21 who are enrolled in Medicaid. EPSDT is key to ensuring that children and adolescents receive appropriate preventive, dental, mental health, and developmental and specialty services.

Molina Healthcare is required to provide comprehensive services and furnish all appropriate and medically necessary services needed to correct and ameliorate health conditions, based

on certain federal guidelines. EPSDT is made up of screening, diagnostic, and treatment services; and all providers serving members eligible for EPSDT are required to:

- Inform all Medicaid-eligible individuals under age 21 that EPSDT services are available and of the need for age-appropriate immunizations.
- Provide or arrange for the provision of screening services for all children.
- Arrange (directly or through referral) for corrective treatment as determined by child health screenings.

As a provider, it is your responsibility to adhere to and understand EPSDT guidelines and requirements to ensure access to the right care at the right time in the right setting.

## 2022-2023 Flu Season

The Advisory Committee on Immunization Practices (ACIP) continues to recommend annual influenza vaccinations for everyone who is at least six months of age and older and who does not have contraindications. It's especially important that certain people get vaccinated, either because they are at high risk of having serious flu-related complications or because they live with or care for people at high risk for developing flu-related complications. Additionally, flu vaccinations can reduce the prevalence of flu symptoms that might be similar to and confused with COVID-19.

A licensed, recommended, and age-appropriate vaccine should be used. Inactivated influenza vaccines (IIV4s), recombinant influenza vaccine (RIV4), and live attenuated influenza vaccine (LAIV4) are expected to be available for the 2022–23 season.

### Important 2022-2023 Updates from the Advisory Committee on Immunization Practices:

1. The composition of the 2022–23 U.S. seasonal influenza vaccines includes updates to the influenza A(H3N2) and influenza B/Victoria components. For the 2022–23 season, U.S.-licensed influenza vaccines will contain hemagglutinin (HA) derived from an influenza A/Victoria/2570/2019 (H1N1)pdm09-like virus (for egg-based vaccines) or an influenza A/Wisconsin/588/2019 (H1N1)pdm09-like virus (for cell culture-based and recombinant vaccines); an influenza A/Darwin/9/2021 (H3N2)-like virus (for egg-based vaccines) or an influenza A/Darwin/6/2021 (H3N2)-like virus (for cell culture-based or recombinant vaccines); an influenza B/Austria/1359417/2021 (Victoria lineage)-like virus; and an influenza B/Phuket/3073/2013 (Yamagata lineage)-like virus.
2. The composition of the 2022–23 U.S. seasonal influenza vaccines includes updates to the influenza A(H3N2) and influenza B/Victoria components. For the 2022–23 season, U.S.-licensed influenza vaccines will contain hemagglutinin (HA) derived from an influenza A/Victoria/2570/2019 (H1N1)pdm09-like virus (for egg-based vaccines) or an influenza A/Wisconsin/588/2019 (H1N1)pdm09-like virus (for cell culture-based and recombinant vaccines); an influenza A/Darwin/9/2021 (H3N2)-like virus (for egg-based vaccines) or an influenza A/Darwin/6/2021 (H3N2)-like virus (for cell culture-based or recombinant vaccines); an influenza B/Austria/1359417/2021 (Victoria lineage)-like virus; and an influenza B/Phuket/3073/2013 (Yamagata lineage)-like virus.
3. The composition of the 2022–23 U.S. seasonal influenza vaccines includes updates to the influenza A(H3N2) and influenza B/Victoria components. For the 2022–23 season, U.S.-licensed influenza vaccines will contain hemagglutinin (HA) derived from an influenza A/Victoria/2570/2019 (H1N1)pdm09-like virus (for egg-based vaccines) or an influenza A/Wisconsin/588/2019 (H1N1)pdm09-like virus (for cell culture-based and recombinant vaccines); an influenza A/Darwin/9/2021 (H3N2)-like virus (for egg-based vaccines) or

an influenza A/Darwin/6/2021 (H3N2)-like virus (for cell culture–based or recombinant vaccines); an influenza B/Austria/1359417/2021 (Victoria lineage)-like virus; and an influenza B/Phuket/3073/2013 (Yamagata lineage)-like virus.

For a complete copy of the ACIP recommendations and updates or for information on the flu vaccine options for the 2022-2023 flu season, please visit the Centers for Disease Control and Prevention at <https://www.cdc.gov/mmwr/volumes/71/rr/rr7101a1.htm>.

### **Molina Healthcare will cover the following flu vaccines during the 2022 – 2023 flu season:**

- Injectable Seasonal Influenza Vaccine (Quadrivalent) - Available from August-April or per state requirements
- Intranasal Seasonal Influenza Vaccine (FluMist) - Available from August-April or per state requirements
- Intradermal Influenza Vaccine Quadrivalent (Short Needle) and Flublok - Available from August-April or per state requirements
- Injectable Seasonal Influenza - Vaccine High-Dose - Available from August-April or per state requirements.

### **Clinical Policy Updates Highlights from Third Quarter 2022**

Molina Clinical Policies (MCPs) are located at [www.molinaclinicalpolicy.com](http://www.molinaclinicalpolicy.com). The policies are used by providers as well as medical directors and internal reviewers to make medical necessity determinations. MCPs are reviewed annually and approved bimonthly by the Molina Clinical Policy Committee (MCPC). The third quarter 2022 updates are noted below.

The following policies were revised:

- Epidural Steroid Injections for Back and Neck Pain (previously *Epidural Steroid Injections for Chronic Back Pain*)
- Radioembolization for Primary and Metastatic Tumors of the Liver
- Spinraza (nusinersen)

The following policies have been retired and are no longer available on the website:

- Abecma (idecabtagene vicleucel)
- Breyanzi (lisocabtagene maraleucel)
- Carvykti (ciltacabtagene autoleucel)
- Intensity Modulated Radiation Therapy (IMRT)
- Kymriah (tisagenlecleucel)
- Lutathera (lutetium Lu 177 dotatate)
- Proton Beam Radiation Therapy
- Proton Beam Therapy for Prostate Cancer
- Provenge (sipuleucel-T)
- Tecartus (brexucabtagene autoleucel)
- Yescarta (axicabtagene ciloleucel)

## Free Continuing Medical Education for Nevada Healthcare Providers

The Pacific AIDS Education and Training Program-Nevada, has put together some fantastic training programs for Nevada's healthcare providers. These trainings cover relevant topics and educational needs within our state to empower and strengthen Nevada's healthcare workforce. [Learn more](#) about the list of programs offered.

### Upcoming:

The 2022 Virtual STI Clinical Update will provide an overview of Nevada's STI epidemiology and the impacted populations. Expert faculty will also cover the latest screening, prevention, and treatment strategies for syphilis, congenital syphilis, chlamydia, gonorrhea, and monkeypox via a case-based program. This training will also include how to address barriers to care for people facing stigma, homelessness, substance use, and poverty.

**[Virtual STI Clinical Update: Practical Applications for Primary Care](#)** on December 3, 2022  
8 a.m. - 12:15 p.m. [Register Today!](#)

## Current News & Updates

Our Provider Portal is a great way for providers to receive helpful information, education, important updates and more! Our goal is to provide you with the kind of information that will help you care for Molina Healthcare members.

Visit [MolinaHealthcare.com/NV](https://MolinaHealthcare.com/NV) under News & Updates for current provider notifications.

Please feel free to contact us at (833) 685-2103 with any suggestions or comments on how we can best communicate with you.
